Celadrin® supports rapid joint cushioning, quickly alleviating inflammation, building cartilage and restoring the entire joint area. Celdrin® halts the cascade of inflammation but rapidly begins restoring the body on a cumulative basis. Celdrin® helps restore flexibility and alleviates pain. Celadrin® helps restore the lipid structure of the cell membrane and converts it to a super membrane enabling the cell to rapidly repair and regenerate. This unique enhancement of the cell membrane restores joint flexibility and alleviates the inflammatory conditions. Celadrin® has a proven pain management compound developed through a proprietary process of esterifying oils. Celadrin® has been medically shown to help reduce inflammation and pain. Celadrin® helps enhance the fluids that cushion your bones and joints to maintain flexibility and mobility.

**PHARMAKOLOGIESE AKSIES:**

Celadrin help met vinnige gewings herstel en om inflammasie vinnig te verlig, die bou van kraakbeen en die herstel van die hele gewrig area. Celadrin breek die versnelling van inflammasie, en begin vinnig met herstel van die liggaam op 'n kumulatiewe basis. Celadrin help om buigsaamheid te herstel en pyn te verlig. Celadrin help om die lipied struktuur van die selmembraan te herstel en vat dit na 'n super membraan, wat die sel in staat stel om vinnig te herstel. Hierdie unieke verbetering van die selmembraan herstel gesamentlike buigsaamheid en verlig die inflammatoriese toestande. Celadrin het 'n bewysde pyn bestuur samestelling ontwikkel deur 'n eie proses van veresterde olies. Celadrin is medies bewys om te help om inflammasie en pyn te verminder. Celadrin help om die vloeistowwe wat jou bene en gewigte beskerm te verbeter en om buigsaamheid en mobiliteit te handhaaf.
